

Creative Thinking Techniques & Tools for Success

Imperial College, London

Well done for getting so far!

This final assessment will test your knowledge of the creative thinking techniques that you've learned in the course. At this point, you may wish to revisit some of the learning materials from previous weeks in order to prepare for the quiz.

You'll be asked **six** questions, including multiple-choice, checkboxes, text input, and dropdown.

Some of the questions may require multiple answers.

Creativity Leads to Innovation

Well done for completing the course!

The tools you've developed over the last 7 modules are for you to use, adapt and add to for the rest of your life. By themselves, they can augment your creative capacities and help you make informed creative decisions – but they all ultimately require your imagination and inquisitiveness to bring your ideas to life.
